

Clark Forklift Attachment

Clark Forklift Attachments - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in commission in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized parts intended for 20 exclusive models of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark has a phenomenal Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark's relentless mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities because this method is particularly economical and enables minimal use of resources. Established to ensure maximum efficiency, this system is designed to discover and acknowledge the most effective ways for manufacturing plant management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering agenda combines progressive product growth and provides improved client support and service within the industry.
