Rockwell Parts

Rockwell Parts - AxleTech International is a leading provider in the world of specialty vehicle drive-train systems and components together with off highway vehicles. The company prides itself on being its customers' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for delivery, quality, service and technology. They believe in working within an environment which supports the highest integrity with empowered collaboration, combined with a relentless pursuit of results.

AxleTech International is a General Dynamics company. They believe strongly in actively applying principals of environmental stewardship and safety in how they do business. The company has put different programs in place in order to articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whatever comments or questions, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are very dedicated to preserving and improving the environment. AxleTech has an EHS program which not only protects the natural environment but which likewise actively protects their neighbors and staff as well.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, which can comprise anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider as well. AxleTech specially designs axles to meet specific application demands. They have over one thousand different axle specs in their present offering. With more than one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in various military and commercial applications. They offer complete axle assemblies used for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details which could be found in the "ISAS" product collection.
