

## Barrel Clamps

Barrel Clamps - A Barrel Clamp is a mechanical or hydraulic attachment intended for a forklift. It can be utilized in order to squeeze the item you would like to transport using the forklift and is often utilized for handling barrels, kegs and paper rolls. A few types of barrel clamp accessories likewise have a revolving function. Like for instance, the rotate function enables the one operating the forklift to put in a vertically stored paper into the horizontal intake of a printing press.
