

## Meritor Part

Meritor Parts - The Meritor Business is a premier global dealer built upon 100 years of custom of service and quality. Meritor focuses on integrated systems with various modules and parts to the original machine manufacturers and aftermarket equipment in the transportation and industrial trades.

Meritor values the needs of all their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than 11,200 individuals, Meritor encourages innovation and collaboration among a team of experienced experts.

By only employing future focused people, Meritor strongly feels these top-caliber individuals would be able to quickly adapt to changing surroundings and demonstrate the commitment and performance considered necessary to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all of their workers different possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes drivelines, axles, braking and suspension systems utilized for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of all their worldwide engineering personnel.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all around the globe in 19 nations and in 5 different continents.

The supplier development network is particularly situated to be able to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within every part of the company. The DFSS or also known as Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business processes and implement lean techniques.
