

## Axle Tech Parts

Axle Tech Parts - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working in an atmosphere that encourages the highest integrity with empowered collaboration, together with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and offering a safe environment for their employees to work in. What's more, they have implemented various programs within the organization in order to help articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whichever questions or comments, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are very dedicated to improving and preserving the natural environment. AxleTech has an EHS program that not just protects the environment but which even actively protects their neighbors and workers also.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, that may consist of anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider as well. AxleTech specially designs axles to meet certain application demands. They have more than 1000 various axle specs within their existing offering. With over 100+ years of experience and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The company is well known in many military and commercial applications. They provide complete axle assemblies for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have added details which could be found in the "ISAS" product selection.
