

Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in service in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized parts fabricated for 20 unique designs of forklifts and automated equipment. Your local Clark Seller is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark has a relentless goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the particularly economical and advantageous structure of "Lean Production" for its assembly plants and use of resources. This structure was developed to acknowledge the most successful method of production plant stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering program combines modern product growth and offers superior client support and service within the industry.
